DR. FUNK AND WIDOW'S MITE.

STRENUOUS EFFORTS OF THE DOCTOR TO INVESTIGATE.

Full Power of the Psychical Research Seciety Employed—Mrs. Piper Gees to Boston, Where Conditions Are Mere Pavorable for Spirit Communication.

Since the spirit of Henry Ward Beecher speaking through the spirit of John Rake-straw, requested the Rev. Dr. I. K. Funk, the well-known publisher and Prohibi-tionist, to return to the heirs of the late Prof. Charles E. West the old Jewish coin known as a widow's mite which he borrowed from Prof West in 1893 in order to ary, Dr. Funk has not only sought some explanation of the affair from practical men of science and business, but has also consulted a number of Spiritualists on the science and business whether they think he is the victim of a fraud or not, he has been asking the Spiritualists why Prof. Charles E. West didn't speak for himself instead of getting his friend Henry Ward Beecher to attend to the matter, and why, when Mr. Beecher undertook the job of getting the coin back from Dr. Funk, he used the spirit of so humble a person as John Rake-straw, instead of speaking up in meeting himself. In explanation one well-known medium said to Mr. Funk:

'It takes time in the spirit world for a

"It takes time in the spirit world for a spirit to perfect himself in the art of getting in communication with this world. Prof. West died only about two years ago, and it would be very remarkable if he was able at so early a date to communicate with his friends on earth. Even Mr. Beecher, who died in the '80s, might have difficulty, under the most favorable circumstances, of getting into communication with whomsoever he wanted to.

"Doubtless Prof. West spoke about the matter to Mr. Beecher, knowing that he was a great friend of Dr. Funk in life, and asked him to get word to him about the coin. Mr. Beecher's spirit might not know just where to get hold of Dr. Funk, and doubtless Rakestraw, who is evidently the spirit of a man dead a good many years, knowing that Dr. Funk would be at a séance which he was going to attend offered his services to Mr. Beecher's spirit. They do things in the spirit world much as they do in this world, and Rakestraw's part in this matter is quite easy to understand.

Dr. Funk has been advised by the Psychical Research Society, just what means they are using to find out whether the communication about the coin really came from Mr. Beecher. Mrs. Piper, the well-known medium of the Psychical Research Society, is at present trying nightly to get into communication with the spirit of Mr. Beecher to ask him about the matter. Nothing but a personal communication from Mr. Beecher will entirely satisfy Dr. Funk that the matter of the coin was a straight out-and-out communication from the spiritual world, although if Mrs. Piper cannot reach Mr. Beecher to ask him about the matter. Nothing but a personal communication from the spiritual world, although if Mrs. Piper cannot reach Mr. Beecher she is to make a try at Rakestraw. Mrs. Piper is working in Boston on the matter. The atmosphere there is said to be especially favorable to spirit communication.

Although there are some sceptics who

on the matter. The atmosphere there is said to be especially favorable to spirit communication.

Although there are some sceptics who see an explanation of Dr. Funk's experience in the fact that a salesman in his establishment, a man named Roney, introduced him into the scance where Mr. Beecher's spirit friend, Rakestraw, addressed him on the subject of the widow's mite, Dr. Funk is satisfied that Mr. Roney had nothing to do with the spirit of Rakestraw locating that long-forgotten coin in the drawer of his safe.

It appears now that Roney not only told Dr. Funk about the aged widow medium, but accompanied him to her house on the occasion of the message from Mr. Beecher and has been there with him since. But Dr. Funk says that Roney couldn't have known anything about the coins in the safe, as he never saw the inside of the safe, save from a distance, and even Cashier Raymond, who is supposed to know every slip of paper in the safe, didn't know anything about the coins being there. Mr. Roney has made an affidavit that he is not in a conspiracy with any spirit or Spiritualist to win Dr. Funk over to the cause, and Dr. Funk is estisfied that he is not.

Dr. Funk told yesterday of another feature of his experience with the spirt of Rakestraw. It seems that he went back a third time to the medium's to ask a ques-

Rakestraw. It seems that he went back a third time to the medium's to ask a question of Rakestraw. He wanted Rakestraw to name the friend of Mr. Beecher who was so anxious about the coin. Neither the spirit nor the medium had been able up to that time to give the name of the person from whom Dr. Funk had borrowed the coin. Dr. Funk knew he borrowed it from Prof. West, but he wasn't letting on what he knew.

the coin. Dr. Funk knew he borrowed it from Prof. West, but he wasn't letting on what he knew.

On this third visit he told George Carroll, the control spirit, to tell Rakestraw to give the name or otherwise to identify Mr. Beecher's friend from whom he had borrowed the coin. Rakestraw couldn't name the man, but the medium, who was in a trance, announced that Rakestraw was holding before her a picture of a school, and kept pointing to it whenever she demanded the name of the owner of the coin.

"Now, George," said Dr. Funk to George Carroll, the control spirit, who was talking through the medium, where is this school?

"In Brooklyn," replied George Carroll.

"Whereabouts in Brooklyn?" demanded Dr. Funk.

"On the Haights" mid George Carroll.

"Whereabouts in Brooklyn?" demanded Dr. Funk.
"On the Heights," said George Carroll.
"It is a young women's school. That's all I can get out of Rakestraw."
Prof. West in life was the head of a young women's school on the Heights in Brooklyn. Dr. Funk thinks this is just as remarkable a feat as the one where Rakestraw identified Prof. West's coin by its dark color when Dr. Funk thought that the 'light-colored widow's mite in his possession was the one he had borrowed from Prof. West.
Dr. Funk repeated yesterday his assertion

Dr. Funk repeated yesterday his assertion that he is no believer in Spiritualism, but is merely an investigator. What he wants is an explanation of this coin incident, and he doesn't care whether it comes from the Psychical Research Society or from some private individual.

DINNER TO AN EXPLORER.

With an Exhibition of Birds and Beasts He Brought Back From the Arctic. A dinner and reception was given last night at the American Museum of Natural History for Andrew J. Stone, the Arctic explorer. The gusets went after dinner to the east mammal hall and there found the entire floor and walls covered with the collections that Mr. Stone has brought back from Arctic America in the last two years. These aggregate 1,500 mammals, of which several are new, and over 300 birds. A majestic Alaskan moose stood in the centre of the hall, surrounded by the skins and antlers of nearly a score of his kin. Among the caribou were thirteen of the Grastii, a unique example of the Stoneli and fourteen specimens of the new Osbornii. There were seventeen Dall's aheep, fifteen Konai sheep, and fourteen Stone's sheep. Among the bears were several huge grizzlies. The skin of a specimen of Merriam's bear was found to measure 11 feet 6 inches in length. Occupying a prominent place on the floor of the hall was a large model of A dinner and reception was given last ength. Occupying a prominent place on be floor of the hall was a large model of he Arctic regions, with the course of Mr. stone's travels clearly indicated.

Mrs. Tekla Lessau was released from the Raymond Street Jail on an order of Judge Thomas of the United States District Court in Brooklyn yesterday. She was committed by Judge Thomas on Jan. 22 for contempt of court for falling to pay to her creditors \$2,307.85, as ordered by a referee in bankruptcy. She is now seriously ill and it was contended that her further confinement in jail would be prejudicial to her life, hence her discharge.

Billy McGlory, former proprietor of Armory Hall, was fined \$20 in the Court of

HETTY GREEN LEAVES HOBOKEN. AWAY WITH THE GAS WORKS.

Mrs. Hetty Green has given up her apart-ments at 1201 Washington street, Hoboken, and gone West. Before leaving Hoboken she told the tenants of the apartment house she considered the health authorities of that city had treated her most shamefully n compelling her to pay \$2 for a license for

"I shall make it a point in future," she said, "to have no more dog summonses served on me. I intend telegraphing ahead to the different places I propose visiting in the West and telling the health authorities that I want a dog license and receipt left at the station.

"I liked Hoboken because I could secure just as good accommodations as I could in New York and still be away from the noise and bustle. If New York folks realized what a nice place Hoboken is to live in, they would overrun it looking for accommodations. The only fault of the city, so far as I can observe, is the too office health authorities."

Mrs. Green vacated said that the doglicense incident was not the only thing that made her decide to leave Hoboken.

"If Mrs. Green entered a grocery and ordered a half pound of butter, every woman in the place would begin to stare at her," said one of the tenants. "Some of them would even make comments on her parsimony, as though a wealthy woman ought to buy her butter by the tub. Mrs. Green intends to stay in Chicago

until she can decide on a new place of

The Rev. Dr. W. S. Rainsford made this the dinner to District Attorney Jerome at the Hotel St. Denis on Thursday night:

the Hotel St. Denis on Thursday night:

"I have no quarrel with the report in The Sun of my speech at Club C on April 2. Of course, much that is important is left out. What I said, however, is grossly perverted in the headline.

"I said and say that every man with eyes in his head and brains back of them knows that the awful evil of prostitution we cannot exterminate." We can, however, by wise or unwise measures, increase or minimize it. I do not mean licensing the evil, or in any sense legalizing it; but I do maintain that no law will exterminate it. Therefore, a law that professes to exterminate it is a fooish and hurtful law. Such a law reënforces the evil it pretends to eradicate.

Such a law reënforces the evil it pretends to eradicate.

"The present law has a tendency to break up the houses where this evil does least harm and drive the poor women into the tenements and apartment houses, where it does the most harm. The present law makes it a crime for any one to maintain houses of ill fame. I advocate the abolishing of that law and the governing of such houses only by the law of nuisances. This policy I have advocated for years. I believe it to be the only honest and righteous way to deal with this terrible evil.

"This is the substance of what I said last night, and to put on it as a head: "Dr. Rainsford Says, Keep the Brothels Open," is, in my judgment, to grossly pervert what I said."

The language quoted in the report was: "The brothels in New York, I believe, should be left alone—not licensed—never licensed—but kept in order. Keep the evil off the streets."

HUNTINGTON ESTATE QUERY.

yesterday on the application made by counsel for Mrs. Emily G. Reynolds, for an order directing the executors of the Huntington estate to file an inventory of the Huntington died in 1900, leaving an estate believed to be worth between \$60,000,000 and \$70,000,000. No appraisal has yet been \$21,000,000.

Mrs. Reynolds is the owner of ten shares of stock of the old Central Pacific Railroad

and she charges that through collusion on the part of the directors of the road more than \$120,000,000 was lost to the stockholders. Her counsel told the Surrogate that it was imperative that an inventory be filed so that Mrs. Reynolds could see whether it was worth her while to sue Mr. Huntington's estate for the alleged losses.

John E. Parsons, for the executors, declared that the verbal charges that the directors of the Central Pacific were embezzlers was not supported by the affidavits submitted in court. He denied that Mrs. Reynolds was a creditor, or that she had any right to an inventory. In any case she represented but ten shares out of \$72,735, he said. The courts had consistently denied such applications and should do so here, particularly where there was nothing to show that Mrs. Reynolds had not acquired her stock a few days before beginning her suit.

TOO MANY CHILDREN IN JAIL Kings County Grand Jury Says There Should Be More Reformatories.

The Kings county Grand Jury for March made a presentment yesterday against the condition of Raymond Street Jail. The presentment says "that the buildings are old and greatly out of repair and need to be largely, if not wholly, rebuilt; that the women's prison especially is entirely inadequate and unfit for its purpose."

adequate and unfit for its purpose." The presentment also says:

"The jury are especially impressed with the fact that so large a proportion of those charged with crime are boys and girls under age. It has been well said that the problem of the children is the problem of the State. As we mould the children of the State. As we mould the children of the toiling masses in our cities, so we shape the destiny of the State, which they will rule in their turn, taking the reins from our hands. In proportion as we neglect or pass them by, the blame for bad government to come rests upon us.

"There are several reformatories and societies in the county for the reform and rescue of children, and their number should be largely increased. Manual training schools should be multiplied.

"We trust that there may soon be an awakened and enlightened public opinion, upon whose all powerful influence we can alone depend to bring about the needed reforms in our city."

TYPHOID IN ITHACA.

The Death of Two Persons and Two New Cases Reported Yesterday. ITHACA, N. Y., April 8 .- Two persons died of typhoid fever and two new cases were reported in this city to-day. The dead are Mrs. E. Schuyler Stoddard and the ten-year-old daughter of Mr. and Mrs. W. Hausner.

Two tenement houses were to-day ordered vacated by the local board of health because of their unsanitary condition and the families occupying them were forced to move out.

Thesis Day was celebrated in the old-time style at Columbia University yester-day. The spitors, who had submitted time style at Columbia University yesterday. The seniors, who had submitted
their graduation theses to the dean in the
morning, cut recitations for the rest of
the day and engaged in log-rolling, spinning tops, rolling hoops, playing marbles
and "pull the peg." The log-rolling attracted a large crowd of speciators to the
quadrangle on the upper campus in front
of the Alumni Memorial Hall. The class
dinner was held last night.

ALL TO MOVE TO LAWRENCE POINT WITHIN TWO YEARS.

Plant to Be Put Up in Sections to Rid Manhattan of Their Presence —Then We'll Get Our Gas by Tunnel.

Harrison E. Gawtry, president of the Con-Harrison E. Gawtry, president of the Consolidated Gas Company, announced yesterday that arrangements had been completed by which all the gas plants on Manhattan Island, scattered along the East River waterfront from Fourteenth street to 114th street, and along the North River, from Eighteenth street to Forty-fourth street, would be removed within the next two years to Lawrence Point on the Long Island shore of Hell Gate, about opposite 116th shore of Hell Gate, about opposite 118th street. For something more than five years the company has been buying land at Lawrence Point for this purpose. Its last purchases make, all told, a tract of 300

turn where Hell Gate meets the East River, was chosen with a special view of not interfering with the future dock development of the city. Except for the small part of the Long Island water front used by the gas company, the shore at that place is prac-tically useless for wharves because of the swift running tide.

tically useless for wharves because of the swift running tide.

It is proposed to erect a gas works having a capacity of 200,000,000 cubic feet a day. The plants which are to be removed from Manhattan Island have a combined capacity of 48,000,000 cubic feet a day.

The new plant, on which work will be begun at once, will be installed in what the gas company calls units of 20,000,000 cubic feet. As often as the capacity of a Manhattan plant is developed at Lawrence Point one will be put out of commission here and torn down.

The new works will be free from any of the features that have made the Manhattan gas works unpleasant neighbors. The latest contrivances for the making of gas will be installed and the works, which will be built of brick and steel, will be operated without the triple nuisances—odor, smoke and soot—which make old-time gas plants so offensive to everybody who has to live near them.

The gas made at the new works will be

advance of those which prevailed a year ago.

The enactment of the present stringent Tenement-House law practically put a stop to building in the tenement districts for a while. Meantime, the foreign immigration rose to unusual proportions, and by last fall a scarcity of houses was found to exist. Since then construction work has been pushed forward on a large scale in all the tenement districts. In the past three months plans have been filed with the Building Department for 139 new tenements, as against forty in the first quarter of last year.

year.

Most of the land to be vacated by the Consolidated Gas Company is on the East River and is directly in the line of the present building movement.

TWO DEAD IN TENEMENT FIRE. Little Girl Makes a Brave Effort to Rescue Her Invalid Uncle.

sons were seriously injured in a fire in the six-story tenement at 127 Henry street ome paint pots in the basement.

Harris Rothstein, an invalid, 62 years old, was asleep on the third floor. His succeeded in carrying him to the floor next to the top when she became exhausted Flames caught her dress and the child fled to the roof of an adjoining house. She says that she begged several men that rushed past her in the hallway to help her save the old man, but none would aid. Rothstein was killed.

The other victim was so badly charred that it was almost impossible to determine the sex. Late last night the body was identified at the morgue as that of Mrs. Sarah

tified at the morgue as that of Mrs. Sarah Lazarus.
Several of the injured jumped from windows and received broken bones. Sarah Greenfeldt jumped from the second floor and broke both her legs. James Fallon, a fireman, tried to catch her and in the attempt was injured himself.

The building was almost entirely gutted, and Chief Purroy placed the damage at about \$10,000. The fire created a lot of excitement in the nelghborhood, which is thickly inhabited. District Attorney Jerome lives just around the corner and was on the scene soon after the fire started.

FORGED ORDERS FOR FREIGHT. Two Prisoners Accused of Defrauding the

Michael L. Holwitz, a pedler of 131 Broome street, and Benjamin Rosenblatt the larceny of a crate of strawberries in the Tombs police court yesterday. An addi-tional charge of forgery was preferred

Tombs police court yesterday. An additional charge of forgery was preferred against Holwitz.

During the past few months the Pennsylvania Railroad has lost several thousand dollars by means of forged orders. On Thursday morning a large consignment of strawberries was received at Pier 28, North River, for William Parker, a fruit dealer of 186 Reade street. Shortly before noon a man called with an order for one of the crates, to which Parker's name was signed.

The crate was delivered, and a few minutes later Detectives Sullivan, Fogarty and Flaherty of the Leonard street station arrested Rosenblatt as he was driving away with the strawberries. He told them that Holwitz had given him the order, and Holwitz was arrested later.

Mr. Parker appeared as complainant against both prisoners, and George Gordon Battle conducted the prosecution for the Pennsylvania Railroad Company. Holwitz was held in \$1,000 bail for forgery and \$500 for larceny. Rosenblatt was held in \$1,000 bail for forgery and \$500 for larceny. Rosenblatt was held in \$1,000 bail for forgery and \$500 for larceny. Rosenblatt was held in \$1,000 bail for forgery and \$500 for larceny. Rosenblatt was held in \$1,000 bail for forgery

SHADOWED A WITNESS. Mr. La Roche Canses the Arrest of Private Detective St. Clair.

Frederick La Roche, a manufacturer electrical supplies, appeared in the Jeffer-son Market police court yesterday as com-plainant against John St. Clair, a private detective, who he said had been shadowing

him.

Mr. Le Roche is a witness for the defence in the patent suit case of the Weston Electric Instrument Company against the Empire Electrical Instrument Company, which is pending in the United States Circuit Court.

Mr. Le Roche said that he has been constantly shadowed for two months. St. Clair, he said, followed him on a bicycle when he went out in his automobile and he or some other sleuth was always on guard before his factory or at his home. 140 West Fifteenth street.

Magistrate Barlow held St. Clair in 3500 bonds for examination to-day.

Youngs Hats

ago a well-dressed young man, calling him-self Dr. G. Correll, arrived in town and hung force. He claimed to be able to look into the future and divert the ways of man from adversity to prosperity. He begged the

which to win back her husband's love. When she applied the charm her husband

be built of brick and steel, will be operated without the triple nuisances—odor, smoke and soot—which make old-time gas plants so offensive to everybody who has to live near them.

The gas made at the new works will be piped to the tunnel now operated by the East River Gas Company, one of the subsidiary concerns of the Consolidated Gas Company, and through that to the mains in Manhattan. The tunnel leaves the Long Island shore not far from Ravenswood, where the New Amsterdam plant is located. That plant will be operated even after the new one is completed.

The Manhattan plants which are to be abandoned are located along the East River at the foot of Fourteenth, Twenty-first, Fortleth, Ninety-ninth and 114th streets and along the Hudson at the foot of Eighteenth, Forty-second and Forty-fourth streets and along the Hudson at the foot of Eighteenth, Forty-second and Forty-fourth streets and along the Hudson at the foot of Eighteenth, Forty-second and Forty-fourth streets. They cover about one hundred acres, or 1,200 city lots. It is pointed out that the abandonment of the Manhattan plants will result in an immediate increase in the taxable value of the real estate in the neighborhood.

Considered as a real estate operation, the time is well chosen for throwing the property occupied by the various gas-house plants upon the market. The company will have no difficulty in disposing of its 1,200 lots to tenement-house builders and buildingloan operators at prices considerably in advance of those which prevailed a year ago.

The enactment of the present stringent Thouse law are stringent Thouse law are restricted to the medium and raised when heathorites. Things became so warm that the master of psychic force quietly fied on Saturday hight. Since then many yiotims have complianted to the authorities.

A remarkable case was reported to the authorities.

A remarkable

There are two frisky baby soudads in the Central Park menagerie, the survivors of triplets that were born on Thursday, night. The other one died a few hours

night. The other one died a few hours after its birth. The acudad is very much like a goat, except as to color and the long beard which grows from the chin to the breast on the male.

Triplets are rare in that family. The offspring are usually born singly, but occasionally there are twins.

The father of the youngsters showed as much interest in them yesterday as the mother did and seefined to be just as proud of his sons, which is an unusual characteristic of the inhabitants of the menagerie, Director Smith said. The head of the acudad Director Smith said. The head of the acudad family passes most of the day standing on the heap of rocks in his enclosure as though he wanted the visitors to admire him. But yesterday he neglected the rocks and remained with his spouse and the babies in

FELLOW PATIENT HIT HIM, Blow Didn't Cause Klatsky's Death Ac

Coroner's Physician Schultze made a autopsy yesterday on the body of Benjamin Klatsky, a telegraph operator, of 80 Norfolk street, who was struck over the temple on Sunday night by a patient occupying an adjoining cot in the insane pavilion at Bellevue and who died Thursday afternoon. The physician's report showed that acute congestion of the brain due to mania and acute bronchitis were the causes of death. Dr. Schultze would not say that the blow did not hasten death, but he was of the opinion that Klatsky would have died anyhow.

The patient, whose name was not made public, arose in the night and struck Klatsky over the eye as he slept, causing a swelling as large as a hen's egg. Klatsky was to have been sent to the Manhattan State Insane Asylum on Monday, but was kept at Bellevue because of his injuries. on Sunday night by a patient occupying

ADD ONE TO THE REYNAL FAMILY It's a Girl and Weighs 14 Pounds-Mothe

Is Gen. Fitzgerald's Daughter. WHITE PLAINS, N. Y., April 3 .- Congratu latory messages have been arriving at the home of Mr. and Mrs. Eugene Reynal in home of Mr. and Mrs. Eugene Reynal in White Plains because of the arrival of a baby girl, who weighs fourteen pounds. Mr. and Mrs. Reynal are living near their estate, The Orchards, where Mr. Reynal is building a million-dollar mansion.

Mrs. Reynal is a daughter of Gen. Louis Fitzgerald. She has another child, a boy, who was born about a year ago.

Mr. Reynal, who is one of the best known whins and cross-country riders in the coun-Mr. Reynal, who is one of the best known whips and cross-country riders in the country, was married to Miss Fitzgerald at Gedney Farm, the home of Howard Willetts, at White Plains, while he was seriously ill with scarlet fever. The house was quarantined, but Miss Fitzgerald braved danger to wed him, and nursed him back to health.

WINDOW GLASS TO BE HIGH. Both the American and the Belgian Supply

Experts familiar with the window-glass trade believe that there will soon be a scarcity of the article and that a rise in price is ity of the article and that a rise in price is soon to be announced. The window-glass manufacturers recently decided to close their factories on April 18 and keep them shut for about six months. The factories usually close in June and it is predicted that the early closing must curtail production to a large extent.

There is little glass coming from Belgium, as many of the factories there are closed and labor troubles are threatened. It is probable, therefore, that the price of foreign glass also will advance.

.. New Old Dominion Liner. The steamship Monroe; the latest addi-tion to the fleet of the Old Dominion Line. tion to the fleet of the Old Dominion Line, which operates daily between New York, Old Point Comfort and Norfolk, takes her place in the line on April 9 with the steamers deferson, Hamilton, Princess Anne and Jamestown. She is a steel ship of fine lines with rich interior furnishings. She has 4,500 horse power, which will give her a speed of sixteen knots an hour. She is 300 feet long over all, with 45-foot, boam and her engines are of the triple expansion type, and she has accommodations for 150 first-class passengers and 76 second class.

HE WAS A PEACEFUL MUTINEER

WHAT IS IT? ASKS THE CAP'N.

Cook in the Fe'e's'le and Her Plag Upside Down-Rush of Harber Cops to the Rescue-No Case, After All, in Court.

into port yesterday with her flag flying most luxurious darky in the fo'c's'le It was on the darky's account that the

lag was wrong side up. policeman on Staten Island, who telephone up to the harbor squad that a ship was coming up the bay with a mutiny aboard.

The harbor cops sprang to quarters and with Capt. Dean in command, steamed down the bay full speed to meet the McClintock tain and mate.

They needn't have hurried. The captain was at the wheel, smoking his pipe and thanking God that it hadn't taken him three York from Morehead, N. C. It was the mate's watch below and he was asleep. The crew, all negroes, were straining their eyes to get the first glimpse of about where West Thirty-seventh street ought to be. And the luxurious darky was dozing in his bunk, perfectly happy so long as he was horrizontal and not caring whether he was

horrizontal and not caring whether he was afloat or ashore.

Capt. Dean and his squad of twelve cops scrambled from the deck of the patrol over the schooner's rail with revolvers drawn. The stillness aboard the sailing craft had made them believe that the worst had happened and that there wouldn't be anybody left alive to give the facts for the station house blotter.

"Be careful," whispered Capt. Dean just before they boarded, "Don't fall down. The decks are probably slippery with blood."

It was because of that warning that the police all landed flat-footed as one man when they jumped, and that woke up the mate and the mutineer. The captain turned his head so suddenly that he dropped his pipe. Two of the sailors raced up to the crosstrees and yelled down that they didn't know anything about that cutting affair on Seventh avenue. Neither did the police.

McClintock where the mutineers were.

"Well, if he ain't asleep, it's because you just woke him up when you started them deek planks with that boardin' stunt of yours," said the captain. "I've been on this run two months. Two months just from Morehead. But I got caught in four storms, and every one of 'em blew me two or three hundred miles out to sea. And there's a nigger below as wouldn't do a lick of work the whole voyage. Ain't that

"He shipped as a seaman and as soon as we get under way be swore he was a cook. And when I let him try to cook, the rest of the crew, after the first meal, said they'd mutiny if they had any more of his grub. So I've carried that miserable nigger for two months as a passenger. He sleepes so I ve carried that miscrable higger for two months as a passenger. He sleeps eighteen hours a day and plays craps with himself the other six. He has to play alone because I threatened to lick any other nigger that had anything to do with him." "Is that all you've got your union down for?" asked Capt. Dean.
"That 'pears to be about all. God knows

for?" asked Capt. Dean.

"That 'pears to be about all. God knows that's enough," said the captain.

The mutineer was arrested and taken before United States Commissioner Shields, who said there was no case and let him go. The police wanted to change the charge from mutiny to hookworm, but the court wouldn't have it.

The prisoner was John Griffith of Boston. The prisoner was John Griffith of Boston.

PINNED UNDER HIS OWN TRAIN. Third Rall Shoe of Another Motor Knocks

Down Elevated Road Conductor.

Gustave Gressig, 50 years old, of Glendale L. I., a conductor on the Myrtle avenue and Ridgewood division of the Brooklyn Rapid Transit Company's elevated system, was knocked down and pinned under his train at Myrtle avenue and Lawrence street, yesterday morning and received injuries which may prove fatal. Gressig was in charge of a commission train, used only during the rush hours. About 10 o'clock the train was being shunted to a middle track. Gressig jumped to the roadbed and was signalling the engineer of his train to back up when a Fifth avenue train, bound for Bay Ridge, came along.

The third rail shoe of the Fifth avenue train hit Gressig, knocking him flat on his face under the forward truck of the first car of his own train. Although the engineer saw the unfortunate man fall he was unable to bring his train to a stop until the wheels had pinned him down by his left leg. For more than twenty minutes he was held fast, waiting for the arrival of jacks to lift the car.

All traffic was stopped until the removal of Gressig. The stalled trairs reached St. Mark's avenue and up Myrtle avenue to Grand avenue. was knocked down and pinned under his

FORT LOWRY HOTEL SOLD. Bought by Alfred Richardson, Who Married Mr. Lowry's Widow.

The Fort Lowry Hotel and property belonging to the estate of the late Joseph L. Lowry were sold by auction yesterday at the Real Estate Exchange. The hotel and property are situated at the foot of Seventeenth avenue, Bath Beach. They were purchased by Alfred Richardson, the preprietor of the Bijou Hotel, who married Mr. Lowry's widow. Mr. Richardson will conduct the hotel. The price paid the estate was \$23,100 over the mortgage of \$84,000.

state was \$23,100 over the mortgage of \$61,000.

Albert T. Mitchell paid \$6,950 over the mortgages of \$12,000 on eighteen lots on Cropsey avenue from Bay Fifteenth to Bay Sixteenth street. The proceeds of the sale will be equally divided among the heirs.

The New York branch of the Armenia Huntchakist Revolutionary party will hold a mass meeting to-night at Bon Ton Hall, a mass meeting to-night at box 10 protest
117 West Twenty-third street, to protest
against the barbarous treatment of the
Armenians in Macedonia. Among the
armedian expected are Dr. S. Sapah-Gulian.

New Fancy Waistcoats.

MEDALS FOR POLICE HEROES.

AWARDS OF THE RHINELANDER BELL AND MEYER TROPHIES.

Policeman O'Nelli Gets the First Named for Saving Two Boys Who'd Fallen Through the Ice-The Others Go to Holder and Kelly for Daring Acts.

yesterday the report of the committee chosen to pick out the men entitled to re-ceive the Rhinelander, Bell and Meyer medals for bravery. Deputy Commis-sioners Ebstein and Piper and Chief Clerk

Kipp made up the committee.

In all 158 men on the force received commendation and honorable mention during the year. Of these there were thirty-three their receiving the department medal. Out of this number the committee selected the men for the three special medals.

Policeman Thomas O'Neill of the Kingsbridge station gets the Rhinelander medal. He saved the lives of two boys who had

he saved the fives of two boys who had broken through the ice on Van Cortlandt Lake on Jan. 2, 1902.

The Bell medal goes to Patrolman George H. Holder of the East Fifty-first street station, for rescuing two children who had fallen from the dock at the foot of East Fifty-second street.

Fifty-second street.

Policeman Patrick J. Kelly of the Macdougal street station gets the Moyer medal. On Feb. 1 last year he was attached to the Harbor Squad and saved the life of a woman who attempted suicide by jumping from the dock at Pier 35, North River.

When the police parade takes place payt the dock at Pier 35, North River.

When the police parade takes place next
month these three will be called out of the
ranks in front of the reviewing stand, where
Mayor Low will pin the medals on their
coats. Then they will be invited into the
stand and will review the remainder of the
parade with the Mayor and Commissioner

NO \$50,000 FUND, CORONERS SAY. Declare Their Fight on the Eisberg Bill

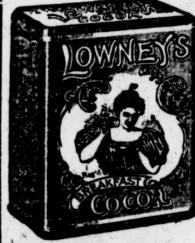

Will Be in Open Court. Coroner Scholer, president of the Board of Coroners of the borough of Manhattan, denied emphatically yesterday that a cor-ruption fund of \$50,000 had been raised to efeat Senator Elsberg's bill legislating

out of office the Coroners of New York.

"The story is a tissue of lies from start to finish," he said. "Not a cent has been raised to defeat the bill, and I wouldn't give five cents to defeat it by means of a corruption fund. If I have any money to expend it will be in fighting the bill in open court." Coroners Goldenkranz, Brown and Jack-

son also denied the story.

At Pan-American Exposition.

UNION SQUARE NEW YORK

Col. Dady Sells His House. Col. Michael J. Dady has sold his house at 218 Schermerhorn street, where he has lived for many years to Harris Salit, a whole-sale liquor dealer. He is soon to go on another protracted business trip to Cuba and during his absence his family will live at the Hotel St. George. Col. Dady has no intention to move from the First Assembly district, in which he won most of his political battles, and on his return from Cuba be will probably purchase a new home on the Heights.
